

PUBLIC NOTICE

The Department of Environmental Quality (DEQ) has approved clean-up activities for the petroleum release at the Former Molt Bulk Plant, 1 Wolfskill Avenue, Highway 302, Molt, Stillwater County, Montana. The clean-up activities are required by the DEQ under the authority of Sections 75-5-501 through 75-11-526, Montana Code Annotated (MCA) and Administrative Rules of Montana (ARM) 17.56.606. The DEQ Petroleum Technical Section requested, reviewed, and approved the Corrective Action Plan (CAP) prepared and submitted by Terracon Consultants, Inc. on behalf of Town & Country Supply Association the owner/operator of the facility listed below. Copies of the CAP are available upon request by contacting the Petroleum Technical Section at the DEQ Remediation Division's main phone line (406) 841-5000 or by emailing DEQ at DEQPTSPublicNotices@mt.gov. An electronic version of the CAP is available at <http://deq.mt.gov/lust/default.mcpix>.

PUBLIC MEETING

A public meeting will be held at the Community Center in Molt on Wednesday, May 29, 2013, at 6 p.m., to discuss this upcoming corrective action and answer questions.

FACILITY INFORMATION

Facility Name:	Former Molt Bulk Plant
Facility Location:	1 Wolfskill Avenue, Highway 302, Molt, Stillwater County, Montana
Facility ID:	48-13552
Release Number:	3634
Work Plan ID Number:	7069

The work includes excavation and disposal of petroleum-impacted soils from the Former Molt Bulk Plant facility in Molt, Stillwater County, Montana. Rock Solid Excavating will conduct work during the 2013 construction season. A section of Wolfskill Avenue in Molt will be excavated and replaced. Detours will be in place during the excavation of Wolfskill Avenue while maintaining local business and residential access. Heavy equipment work on site and truck traffic entering and leaving the facility is expected during this time.
